

2007

South Carolina Web Accessibility Conference

March 29, 2007
9am - 4:15pm

Columbia Metropolitan
Convention Center

Sponsored by the SC
Assistive Technology Advisory
Committee (ATAC), this free
conference is open to anyone
responsible for website
accessibility from government
or educational agencies in
South Carolina.

In addition to learning about
the accessibility efforts in
South Carolina, updates on the
standards, useful application
tips and success stories, you
will also be getting a REALITY
CHECK from individuals who
use the assistive technologies.

We are honored to announce
that this year's conference
will once again be held
concurrently with the 14th
annual South Carolina Assistive
Technology Expo. Over 60
exhibitors will be showcasing
the latest assistive technology
devices, equipment, practical
applications and services.

This is a great opportunity
to gain valuable knowledge,
network with other web
professionals, as well as
meet people of all ages and
disabilities and experience the
broad spectrum of technology
used for independent living.
